### Specifications

#### Composition

Lantal flat weaves consist of 100% polyester or polyester blends with very high lightfastness and ageing resistance. The fabric is stretchable, making it highly flexible for all seat types.

#### Typical applications

Seat covers, headrest covers.

#### Designs and colors

The Lantal product line covers a selection of predefined colors and designs, available from the warehouse. Lantal's flat weaves can easily be combined with other materials such as leathers or velvets to create a vast range of options for uniquely distinctive interiors. They can be matched to emphasize your brand and your corporate identity.

### Moisture absorption

Polyester fibers hardly absorb moisture and guarantee good moisture wicking.

### Abrasion resistance (Martindale)

Lantal's flat weaves comply with bus industry wear specifications.

### Lightfastness

Thanks to an optimized dyeing process, Lantal's flat weaves achieve outstanding results in terms of hot lightfastness and ageing pursuant to ISO 105-B06.

### Safety and standards

Lantal flat weaves are flame-resistant and comply with the standards and specifications of UN-ECE-R118.02.

### Cleaning

Washable with water and sponge or with a wet extraction unit at temperatures of up to 40°C. The fibers absorb virtually no moisture and therefore dry quickly after wet cleaning. Please consult the product-specific care instructions.

### Service life

Lantal flat weaves have a very long service life. The actual service life heavily depends on regular professional cleaning.

### Ready-made products

Lantal supplies ready-made seat covers on request. The seat covers are supplied on the basis of the measurements provided and are ready for use. Other ready-made products supplied by Lantal include headrest covers, curtains and carpets.
